

ANNUAL PROFECTIONS

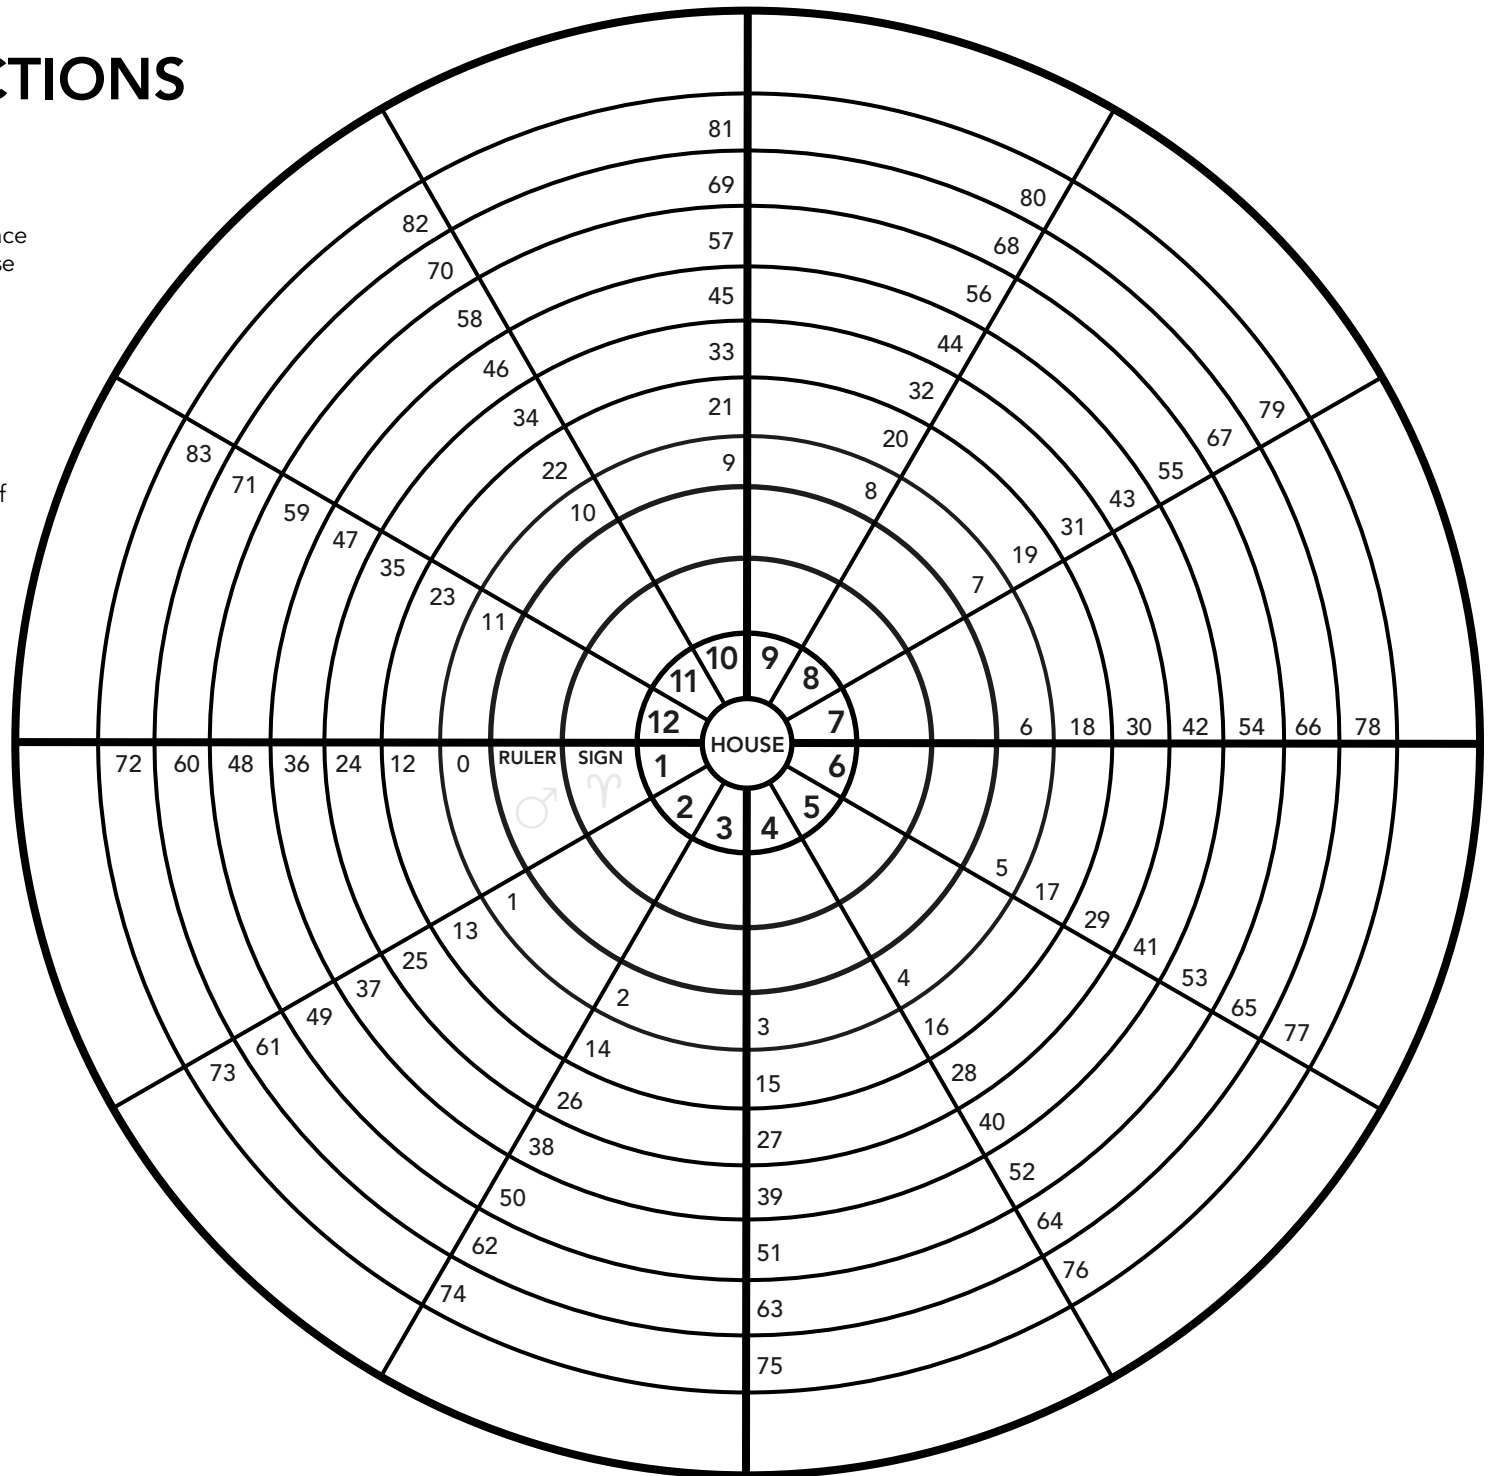

This is a Hellenistic Astrology technique.

When you are born, you start life in the 1st house at the age of zero. This is where you place your Ascendant (Rising Sign). This is a 1st house profecation year.

When you turn one year old, the profecation moves to the next sign in zodiacal order (see below). This is the 2nd whole sign house.

The profecation jumps one sign per year for 12 years. Then the cycle repeats. Observe each of the columns for any repeating themes.

Columns with the same ruler get triggered together for those years. Add planets from your natal chart onto the blank outer ring for additional combinations and insight.
